Dear Shari & Don:

At last week's Lake Allegan/Kalamazoo River Watershed Phosphorus TMDL Implementation Committee meeting I had the privilege of hearing your presentation on the status of the PCB cleanup efforts within the Kalamazoo River. I appreciated hearing an update on the activities to date and would like to be placed on the email notification list for upcoming meetings.

Attending with me was Justin Blackmon, a Western Michigan University student with a dual major in biology and environmental studies. He, too, is interested in future notifications. Can you add his address, Justinblack00@aol.com, to the list?

Thank you,  
Christine Kosmowski
